

Summary of Pedestrian and Bicycle Standards

CWBTAC December 6, 2018

Pedestrian Guidance in the Highway Design Manual (HDM)

- HDM 105 – Pedestrian Facilities
- HDM 116 – Bicyclists and Pedestrians on Freeways
- HDM 401.2 – Human Factors
- HDM 402.4 – Consider All Users
- HDM 405.4 – Traffic Islands (pedestrian refuge area)

Pedestrian accessibility guidance

Design Information Bulletin (DIB) 82-06 – Consistent with 2010 ADA and PROWAG Draft Guidelines

Bicycle guidance in the HDM

- HDM 115 – Designing for Bicycle Traffic
- HDM 116 – Bicyclists and Pedestrians on Freeways
- HDM 301.2 – Class II Bikeway (Bike Lane) Lane Width
- HDM 302.1 – Shoulder Width (rumble strip guidance)
- HDM 401.2 – Human Factors
- HDM 402.4 – Consider All Users
- HDM 403.6 – Turning Traffic (bike lanes at turn pockets)
- HDM 1000 – Bicycle Transportation Design

Bicycle guidance not in HDM

DIB 89-01 – Class IV Bikeway Guidance (Separated Bikeways/Cycle Tracks) – References the FHWA publication, *Separated Bike Lane Planning and Design Guide*

General Guidance that may reference bicycles and pedestrians (not all-inclusive)

- HDM 108 – Coordinating with Other Agencies (transit stops, loading areas)
- HDM 404.2 – Design Considerations (for intersection design)
- HDM 405.10 – Roundabouts
- Other references to bikes and pedestrians throughout the entire HDM and DIB's
